PROFESSIONAL SUMMARY

UI/UX Designer with a BSc in Computer Science, specializing in Arabic-first (RTL) interfaces and AI-integrated user experiences. Designed and shipped a full AI voice-navigation app adopted by 50+ users, built enterprise design systems, and led a team to Top 4 among 50+ teams at Asir Hackathon. Proficient in Figma, Flutter, and front-end development. Seeking a UX/UI role applying human-centered design to AI-driven products at scale.

PROFESSIONAL EXPERIENCE

Operations Coordinator - Protothon Hackathon, KAU

Oct 2025 – Jan 2026

Deanship of Student Affairs | Jeddah, Saudi Arabia

- Coordinated cross-functional teams and event logistics across 250+ hours; recognized by faculty for outstanding operational performance.

UX Specialist - Ghelaf AlMehani

Jul – Oct 2025

UX Department | Jeddah, Saudi Arabia

- Designed the corporate web platform UI end-to-end, iterating through 5 stakeholder review cycles, earned a UX Specialist title directly from the CEO.
- Built a reusable design system (components, type scale, design tokens) adopted as the team's single source of truth, reducing design-to-engineering handoff friction.

SELECTED PROJECTS

Seeraj - AI Voice Navigation App

Sep 2025 – Present

Senior Capstone (KAU) | Continuing as personal project

- Owned end-to-end UX/UI for a 4-member capstone team: researched user needs, mapped conversational flows for an NLP voice assistant and drowsiness-detection module, and designed full Arabic-first RTL interface in Figma.
- Delivered a graded senior capstone at KAU; selected to demo at X-THON 4, University of Tabuk.
- Continuing post-graduation as a live product, 50+ users onboarded, currently in usability-testing phase.

Ruhub - Tourism Web App

Aug 2025

Asir Hackathon | Design Lead

- Led UI design for a 5-person team to a Top-4 finish out of 50+ teams, delivering the complete interface in under 20 hours.

Afaq - Smart Design System

Apr – Jul 2025

Cradis Bootcamp Capstone | Figma

- Architected a 30+ component scalable design system with tokens and variants, showcased as the bootcamp's capstone deliverable.

SKILLS

Design: Figma | Wireframing | Prototyping | Design Systems (Tokens, Components) | Visual Design | Arabic-first RTL/LTR

UX Methods: User Research | Usability Testing | Information Architecture | Design Thinking | User Personas | Journey Mapping | Accessibility (a11y) | Developer Handoff

Development: Flutter & Dart | HTML5 | CSS3 | JavaScript | Responsive & Mobile-First Design | Git/GitHub

EDUCATION

BSc in Computer Science, King Abdulaziz University

Aug 2022 – Jun 2026

- Senior Capstone:** Seeraj - AI-powered voice-navigation and drowsiness-detection app; delivered full RTL Arabic-first UI in Figma with NLP conversational flows.
- Relevant Coursework:** Human-Computer Interaction, Artificial Intelligence, Software Engineering, Data Structures & Algorithms

LANGUAGES

Arabic (Native) | English (Fluent)

TRAINING & CERTIFICATIONS

- AI Skills Training** - SDAIA × Microsoft Elevate Program | 2025 – Present
- UI/UX Design Scholarship** - Cradis (94+ hours) | Apr – Jul 2025
- UX Bootcamp** - Tuwaiq Academy | Jul 2025
